HELPS STRIP INCHES FROM HIPS! THIGHS! WAIST AND MIDRIF! NEW

REST 'N CYCLE

*pinpoints
the attack*

REST 'N CYCLE — A UNIQUE DEVELOPMENT. For the first time in the history of exercise devices, science has at last developed **REST 'N CYCLE** — a machine uniquely designed to let you trim away unwanted inches while you remain in a prone position. Now the **MIDDLE AREA** (areas from the knees to the midriff) is *slimmed, toned, conditioned and firmed* more directly than ever before!

THE PROBLEM OF THE MIDDLE AREA. The greatest problem areas of the human figure (both the female and male figures alike) are between the midriff and the knees — the **MIDDLE AREA**. The signs of a shapeless, unattractive silhouette begin when muscles that once were taut, begin to lose their firm youthful appearance. Muscle tissue begins to sag. "Loose tissue bulge" begins to develop above the girdle line. Bulging hips and embarrassing "thigh bulge rings" begin to pile up. Lack of exercise, physical neglect and improper diet begin their build-up of fatty deposits in the **MIDDLE AREA**. Even proper diet, without proper exercise may still leave stretched-out tissue, loose flabby skin, bulges that need to be *slimmed down, redistributed, conditioned, toned-up and firmed*.

REST 'N CYCLE is designed on the principle of mechanical balance and counterbalance to give you safe, stress-and-strain-free exercise. Now a trim, youthful-looking figure can be yours at an unprecedented low price. Start enjoying the wonderful awareness of a slimmed-down, uplifted silhouette. Strip away inches and see your new beauty emerge!

REST 'N CYCLE Your Way to Uplifted and Improved Posture. The special exercise booklet you receive with **REST 'N CYCLE** prescribes specific routines for slimming down certain areas and building up special body muscles — *toning and firming the pectoral muscles for the development of an uplifted, youthful appearing silhouette — firming the bicep and tricep muscles to help rid you of flabbiness in the upper arms.*

When their bodies came together in the hot sun,
their love shut out an angry world...

EXCLUSIVE

★ Fire spread through her body as he made love to her. She couldn't help herself. She couldn't stop herself. She could only cling to him, dig her fingers deep into his strong shoulders, and murmur "I love you, I love you, I love you."

The hot Mediterranean sun baked down on their bodies, biting into their skin, making every pore tingle with desire. To make love in the sun! To lie under the hot burning eye of the sun, unafraid and trusting, to make love with the spirit and the flesh.

There was something so healthy about their love and love making. It was not only the fact they were near the wonderful warmth of the sea, swimming, sunning—they were free of the contamination of a city, free from the prying eyes of crowds, they were free to live and love as they liked.

LIZ ON HER HONEYMOON

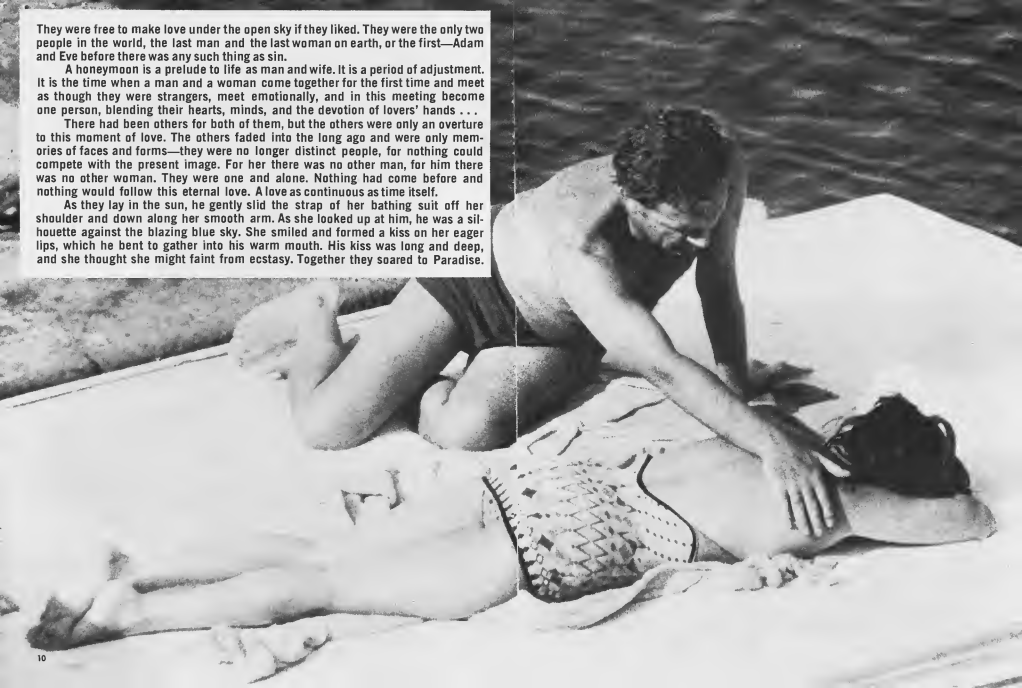

They were free to make love under the open sky if they liked. They were the only two people in the world, the last man and the last woman on earth, or the first—Adam and Eve before there was any such thing as sin.

A honeymoon is a prelude to life as man and wife. It is a period of adjustment. It is the time when a man and a woman come together for the first time and meet as though they were strangers, meet emotionally, and in this meeting become one person, blending their hearts, minds, and the devotion of lovers' hands . . .

There had been others for both of them, but the others were only an overture to this moment of love. The others faded into the long ago and were only memories of faces and forms—they were no longer distinct people, for nothing could compete with the present image. For her there was no other man, for him there was no other woman. They were one and alone. Nothing had come before and nothing would follow this eternal love. A love as continuous as time itself.

As they lay in the sun, he gently slid the strap of her bathing suit off her shoulder and down along her smooth arm. As she looked up at him, he was a silhouette against the blazing blue sky. She smiled and formed a kiss on her eager lips, which he bent to gather into his warm mouth. His kiss was long and deep, and she thought she might faint from ecstasy. Together they soared to Paradise.

She could feel the world slip away from her, reality burst and the hard deck of their yacht became a downy soft bed of clouds lost in a sensuous paradise.

She remembered a biography she'd been reading in which a great man's mistress said, "I loved him because when he made love to me, he played me like a piano."

He began to rub her back, his large strong and warm hands caressing every muscle until they tingled with yearning.

Music drifted up from the cabin below—music for lovers, music for a time when love and love alone was all.

Everything was shut out of her mind but the burning heat of the sun and that one moment, that one man, that one hand moving across her back, moving across her body, shutting out the world, moving gently, bringing her to the brink of a continent, strange and dark, bringing her to a moment of light and sound and fire and ice, bringing her to a never-

ending time and place where desire was a merry-go-round that never stopped, with the brightly colored streamers flying, waving, flashing, blinding in the sky.

He was the man to make her more of a woman, more excited to be female, than she had ever been. Never before had she reached such heights of passion.

Could a love like theirs be wrong in any way? Could a passion so great ever be denied? Would their life together have to be confined to a honeymoon? Perhaps it would always have to be a prelude to a life never to be realized. If that should be, it would be better to die now, in a final moment, to close the door of consciousness in a final blind spot of frenzy.

He kissed her again, playfully, teasing her to become excited again, and she laughed.

"My wicked lover," she whispered breathlessly, gently biting his ear.

She ran her fingers through his thick curly hair, then she threw her arms around him and hugged him and tickled him, holding on so that he could not force her away. She watched his eyes dance playfully with delight.

He howled with laughter and finally broke away from her, then pulled her to him again, merging, blending as though by some marvelous design they had been made for each other.

After just one dance with her,

power Sue Lyon has over men, and
is it a blessing or a curse?*

WHEN SUE LYON walks down the street, men turn to watch and whistle. There's something about the girl. At sixteen, she is the hottest personality to come to the screen since Brigitte Bardot—an old lady compared to Sue!

In "Lolita", her first movie, filmed while she was fifteen, Sue played a sexy little girl who has affairs with two middle-aged men. In the book, Lolita also had an affair with a teenage boy, but this escapade was dropped from the movie.

In this controversial role, Sue is perfect. She projects just the right amount of innocence, liberally laced with just the right amount of seething sex.

Off screen, Sue has started to pile up hearts as though they were stones. She is becoming quite the man-eating tiger with no apparent effort. As a matter of fact, Sue is slightly appalled by her powers.

Let's examine the record. First there was

They thought she's been a kid all her life, but Hayley had decided to turn into a young woman.

Hayley's most recent movie is "In Search of the Castaways," in which she gets first screen kiss.

IT was a clear, sunny day in early summer and I was meeting a friend for lunch. What made the day extra-special for me was that, for the first time, my mother had let me wear a pair of high heels. There's something about a girl's first high heels that's, well, you know what I mean.

I liked the sound they made, clicking along on the pavement. Then, suddenly, I heard another sound behind me. A long, low whistle, the kind no girl can mistake.

Hollywood is full of beautiful girls, starlets who are just be-

ginning the climb to the top, salesgirls, car-hops, waitresses who are still hoping for their big chance. So when I heard that whistle, I turned to see what type of beauty had caused it.

A boy was standing in front of a drugstore, and as I turned he smiled and winked at me. My knees almost gave way. He'd whistled at me, Hayley Mills!

He was a nice-looking boy, too, in a starched sportshirt and neatly-tailored slacks; his blond hair was crew-cut and his eyes were full of mischief. *(Continued on page 54)*

THE TRUTH ABOUT CHRISTINE KAUFMANN...

It was just twilight, and the sidewalks of Paris were thronged with crowds sauntering down the wide boulevards and the quaint, cobble-stoned narrow streets. Work was finished for the day, but it was too early for dinner. Everyone strolled along, chatting and enjoying the cool autumn breeze. Every self-respecting Parisian had left the city during August to go on vacation—to escape from the heat, and the tourists.

But now, they had all returned, happy to be back in the city of joy where love was the first word children learned after "Mama" and "Papa." The atmosphere was infectious, and the couple sitting at a small sidewalk cafe were caught up

in the mood of expectation and delight that seemed to shine from the faces of all the passersby. Love was in the air, and Tony Curtis and Christine Kaufmann, facing each other across the table, sipping tiny glasses of vermouth cassis, were touched by it. It was not a new feeling to either of them. Ever since they had first met on location in Argentina, where they were filming *Taras Bulba*, a bond of affection and warmth had sprung up between them.

It had started when Christine felt lonely and shy, so far away from her home in

Germany. Tony's natural friendliness had gone a long way toward making her feel at home, even though being on the Argentine Pampas was a long way from California, too — but Tony had Janet and the children with him, and felt at ease.

Janet had tried to be friendly, too, but when she noticed that Tony's overtures toward Christine were suddenly more than brotherly, and when others began making sly comments, she bristled, and they had another one of their arguments, which seemed to occur more and more frequently.

LANA TURNER:

"I am disgusted by a man who would take advantage of a woman; who is content to bask in her reflected glory. A man should want to make an independent career for himself. If he can't stand on his own feet, he's no man!"

THINGS THAT DISGUST ME IN MEN

Five Hollywood beauties tell you what it's like to be on the losing end of a love affair with a guy you can't stand

MARTHA HYER:

"I can't stand men who are crude or violent. They may call themselves he-men but as far as I am concerned, they are simply over-grown juvenile delinquents. The American male tends to confuse bad manners and sloppiness with virility; his outbursts of temper give him a false sense of strength and power. A real man is gentle and considerate because he is sure of his masculinity. He does not have to go around proving it by his brutal treatment of his wife or sweetheart. The qualities that make a gentleman never go out of style.

5 THINGS THAT DISGUST ME IN MEN

ELSA MARTINELLI:

"I am an emotional woman by nature. Therefore, I could not stand the love and companionship of a man who was unable to share these emotions that I feel so deeply. To make me happy, a man would have to be able to laugh with me when I am happy and to weep with me, or at least to share my grief when I'm sad."

STELLA STEVENS:

"I am always infuriated by those men who deride a woman's mind, who resent her for showing them that she has every bit as much brain as he has. I have no patience with those self-styled advisors who say that even if a woman has the misfortune to be an intellectual, she should keep the fact a closely guarded secret. This kind of thinking went out with hoop-skirts and bustles. A woman who conceals her intelligence may build up the ego of some not-too-bright male, but who can spend her life with him?"

SHIRLEY MacLAINE:

"I couldn't get along for five minutes with a man who didn't have a strong sense of humor, the ability to laugh even when the going gets rough. I guess a man needs a sense of humor to get along with a gal like me, or that! Another kind of man I couldn't take is one who would rob his wife of her independence. Marriage is a wonderful institution but it isn't a jail. My husband and I are both in agreement on this, so we are able to get along under conditions that would break up others."

THE OLDEST

Why does one of the most desirable women in the world prefer her men to be old?

WHO is Lolita? A nymphette immortalized in a novel and the recent movie. She's the girl who's given up playing with dolls at an early, early age. She'd rather play with men—the older the better, because she's bored by young ones—they're not worldly enough for her—and neither are they likely to be as sexually experienced as the older, genuinely sophisticated man—who has a backlog of women, to put it bluntly, to his credit.

In this world of many different preferences, each to his own, of course, but there is one woman who seems to go along with the Lolita psychology, swimmingly.

She's the gorgeous woman men can't find words to describe, she's that luscious, but if she gives a fig about them, she hasn't so indicated—at least the younger ones. She snaps her fingers in disdain when asked why she hasn't chosen a young bull for a husband. "I have better things to think about," she says witheringly, and she means it.

"Give me an older man, and I will show you a real man," she says. People thought it was just plain talk, and that if a young rake came along, she'd want him. But she didn't—not Sophia Loren—the oldest Lolita.

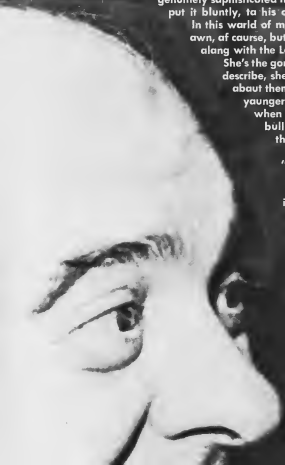

This queen of the Tiber shackled the world—particularly the world of men (because same women were secretly relieved that this devastatingly sexy woman was out of the running) when she married Carlo Ponti, an Italian film producer 20 years her senior, and one foot shorter than her majesty.

He was chunky, very intelligent and loving, and Sophia fell madly in love with him, despite the fact that there was one important obstacle to their getting married: he had a wife and two children.

This did not in any way make Sophia hesitate in giving her heart

to Carlo. She said once, "If I fell in love with a married man, I'd stay with him, because people who are in love belong together—and they should have a family, too—in or out of wedlock, it didn't matter!"

A strange statement from a woman with high moral values, but it must be remembered that Sophia is also a frank and open woman not given to hiding her feelings, even if the expressing of those feelings puts her in a bad light.

"I decided to be an actress when I was born. I wanted to be an actress; I had to be an actress; I am an actress, and," she added, "if

Testing his precision and speed, Ricky breaks 3 boards in two, with one open-handed blow!

Meet the new Ricky Nelson, teenage singing idol — now an Asian Karate killer!

The young man who faced me across the coffee table in the comfortable den of his new house in the Hollywood Hills didn't look like anyone's picture of a trained killer. True, he was tall and unusually well-built, with broad shoulders and muscular arms. But there was a boyish smile on his face, and an almost shy air about him that made his words sound fantastic in that quiet and invitingly warm room.

"That's right," Ricky repeated evenly. "If I were to hit somebody today, legally I could be arrested on a charge of assault with a deadly weapon."

He went on to explain. Just as a boxer's fists are considered deadly weapons because the man has been trained to use them in a special way, so the hands (Continued on page 64)

SUE LYONS

(Continued from page 18)

James Mason. He got the role of Lolita's lover after David Niven turned it down saying, "I honestly lacked the courage." Mason had the courage.

Almost as soon as he returned to this country after making "Lolita" in England, the divorce rumors started circulating. Then Mason came into New York to attend the opening of the movie and the word got out that he had written to his attorneys in Hollywood about arrangements for a split. The Mason's have been a happily married couple for 22 years!

When questioned about the rumors, Mason said "In our world in Hollywood, people do have crises from time to time and from time to time they don't have crises which are reported as crises. I suppose you could say though that there is a slightly critical situation."

Lo Hollywood, meanwhile, Pamela Mason said she knew nothing about any letter and not very much about any divorce. "We've been through this many times before," she said, "so I'll just wait until he comes home. Being a wife of a movie star is full of little surprises."

Mason's biggest surprise for his wife was that he wanted a divorce. Though the terms of the divorce took some time to work out, there was no question to the fact that this was it for the Masons.

Next victim of "Lolita" and Sue was Peter Sellers, her other co-star. The word first broke in Dorothy Kilgallen's column:

"Peter Sellers has just split with his wife, but that isn't the half of his problem, or even a third. His complicated motivations in real life ought to interest Vladimir Nabokov no end."

Nabokov is the author of "Lolita," the man who dreamed up the sexy little kid in the first place.

When Sue returned to Hollywood after a 25,000 mile tour to promote the movie, she had already caused quite a stir in the papers and magazines. Since she had been kept under careful guard while making the pictures and shielded from the press and movie colony, everyone was oow eager to meet, wine and dine her.

At one party where Sue was the guest of honor, George Hamilton and his fiancée Susan Kohner were also present. George and Susan had been engaged for over two years and had finally set the date for their marriage, which was less than two months off. George had already bought Douglas Fairbanks Holly-

wood mansion as a present for Susan. Though George is a very wealthy young man, the house set him back a pretty penny.

During the evening, George left Susan and went over to Sue and introduced himself. He kissed her hand and asked her to dance. She looked up at the handsome young actor and said, "I'd be delighted."

The party ended shortly and so did the Hamilton-Kohner romance.

What did Sue have to do with these three base-ups? A great deal. Sue was not out after Mason, Sellers or Hamilton. Nor was she actually involved with any of them, despite Susan Kohner's statement to the press after George's dance with Sue, "When there are uncertainties, it is better not to go through with the marriage."

But Sue is a highly attractive young woman—no one who has met her can think of her as a child. She is also highly desirable. She is the kind of girl who literally make men want to leave home. She is the picture of a young romance, the ideal of every man—no matter what his age. She was a symbol to James Mason of the young and carefree life he had left behind 22 years ago when he got married. After knowing her, he decided he wanted to try to recapture those early days.

With Peter Sellers the situation is much the same. There is the implication in Miss Kilgallen's item that Sellers has developed a yen for young girls. If he has, after working with the lovely young Sue, it is no wonder.

And George Hamilton, though suave and sophisticated, was not immune to Sue's charms. Marriage no longer seemed very attractive if there were single girls like Sue Lyon.

George, whose career will get a big boost when fans see him with Kirk Douglas in "Two Weeks in Another Town," spent no time mourning his engagement. He quickly rushed into the waiting arms of Pamela Curren, a socialite he has known for years. He was unable, by the way, to get back his money from the Fairbanks house.

Susan Kohner, as though to advertise the fact that she was still attractive and available, threw a big square dancing party at her parents' home. She imported bales of hay and hired a "caller." Guests included most of the smart young Hollywood set including the Peter Fondas, the Edd Byrneses, Suzanne Pleshette and Troy Donahue, Karen Kupcinet, Gis Scala and Don Burnett. George Hamilton was not invited.

"She felt him in her arms before she knew he had entered the room. But being strong, she freed herself from his grasp and started striking, biting, and scratching. Afraid that she might call out, she tried to stop her mouth with bedclothes. But this he found impossible; for when she saw that he was using all his strength to work her shame, she did as much."

DR. KILDARE (Continued from page 21)

I didn't know the man who knelt beside me on the grass. I'd never seen him until this moment, when I opened my eyes and found him looking down at me. There was a tenderness and compassion in his face that seemed to reach out to me, in spite of my fear.

Only a moment ago, or so it seemed to my dazed mind, Jeff and I had been speeding along the highway. I knew he was driving too fast—he got a kick out of speeding, and none of my pleading would make him slow down. He'd had too much to drink, too.

The truck loomed up ahead of us out of the Los Angeles smog, and I remember the sickening screech of brakes and then the sense of being hurled through space as if by some demon hand.

The next thing I was aware of was this man kneeling beside me.

Strange, but although I'd never seen him before in my life, I knew somehow, instinctively, that I could trust him to take care of me. It was a feeling I'd never had before about any man—not even Jeff.

And yet, if it hadn't been for this accident, right at this moment Jeff and I would be speeding toward the motel that was our destination for tonight. Even now, I'm sick with shame to write those words, because, you see, Jeff was not my husband. He was married to another woman.

I hadn't given in easily. I was a nice girl, a decent girl, or at least I had been until tonight. What had changed me? Had it been my loneliness, my feeling that life was passing me by? Was it my fear of losing Jeff's love? Or had I ever really believed that he loved me? I found myself wondering, for the first time, if a man like Jeff ever really loves anyone but himself.

I turned my head away from the stranger who knelt beside me, and a tear rolled down my face. I tried to raise my hand to wipe it away, and the man said softly: "Don't move—just lie still. Everything will be all right."

There was a sureness about him, a quiet authority in his voice.

He took a clean, white handkerchief from his pocket, and gently he wiped away my tears.

"Are you—are you a doctor?" I asked. I don't know why, there was just something about him that made me think so. He seemed poised and calm, yet concerned for my welfare, too.

"No," he said smiling in a funny way. "You couldn't exactly call me a doctor. But I know enough to be sure you shouldn't move right now."

"But Jeff—I've got to find out how he is."

The man was holding my hand in his big, gentle one and now he lifted it and looked at the ring I wore. "Jeff is your husband?" he wanted to know. Of course he'd think that. How could he know that the ring on my finger had been bought hastily in a cheap costume jewelry store so we could register at the motel without arousing suspicion? Jeff seemed to be quite experienced in matters like that.

"No, he's not my husband, but—" I couldn't go on. There was something clean and honest in the hazel eyes that looked down into mine. How could I tell this man the truth about myself—he'd never understand.

Now, in the distance, I heard the wail of sirens. The ambulance should be here soon," he reassured me. I raised my head and saw a scene like something out of a nightmare—a hideous red glare lit up a terrifying vision of an overturned truck blazing on the highway. I stared into the fog, searching in vain for Jeff's car. As I raised myself, an agonizing pain shot down my spine and I moaned in spite of myself.

At once, the man's hands were on my shoulders, pushing me back very gently, but firmly. "I told you to lie still. Moving at a time like this could cause a permanent injury."

"But Jeff—"

He looked at me pityingly. "Was Jeff wearing a plaid sports jacket?"

"Yes," I whispered. "Oh, God he isn't—he hasn't been—"

"He isn't dead," the man said grimly. "As I was getting out of my car, I saw him go off on foot. He couldn't have been hurt very badly, although that car was smashed up."

The words in both our minds hung between us unspoken. Jeff had panicked and escaped from the scene of the accident without even trying to find out if I'd been badly hurt—or killed. He was afraid his wife would find out if he hung around until the police arrived and started asking questions. He didn't want to have my name linked with his in the newspapers.

"And the truck driver?" I asked. I guess I knew the answer to that without asking. No human being could survive the inferno that had enveloped the truck after the crash.

and all at once I became aware of a chill. It started somewhere deep inside me, as icy as the hand of death, and spread outward until I was shaking all over. My teeth started to chatter, although I remembered that the summer night had been warm a few moments ago. Hazy voices spoke.

"Shock," the man said. "It's very common in cases like this." He stripped off his jacket, and laid it over me carefully, tenderly.

"Please," I begged, "keep holding my hand. I feel so frightened."

"Of course," he said softly, and once again, he took my icy hand in his.

I had a moment of blackness, and I thought I was dying. Maybe this was my punishment for the bad thing I'd nearly done, the thing I surely would have done if not for the accident that had intervened to stop me.

But through the swirling darkness that threatened to envelope me, through the pain and fear and guilt, I clung to the hand of this merciful stranger. I gripped his hand so hard my nails bit into his skin, but he didn't try to draw away.

"It's all right," he kept saying, in that soft, soothing voice. "You're not alone. Don't be afraid."

"But you don't understand," I whispered. "If you knew what I did—what I was going to do—"

"It doesn't matter now. Nothing matters except getting you to a hospital where you'll get the proper care."

Now the sirens were screaming close by, and there was the sound of brakes, and men's voices. Suddenly we weren't alone any more. And in a strange way I was sorry. For a few moments, I'd felt closer to this man, whose name I didn't even know, than I'd felt to another human being before.

He stayed with me, holding my hand, speaking words of reassurance, until the ambulance doctor put me on the stretcher.

I looked around to thank him then, but he had disappeared. I wonder if I'll ever see him again. Fate is strange, and sometimes on the street, I look for a tall, lean figure with blond hair and warm hazel eyes. For although we were only together in that flaming, fog-shrouded night for a brief interval of time, something had passed between us. Not in words, perhaps, but in the things we'd left unsaid.

In some mysterious way, I was sure that if this man, so kind and strong and gentle, had known the truth about

Jeff and me, had known what we were going to do, he would have understood and forgiven my human frailty.

It was a horrible way to be saved from my own weakness, but maybe it was meant to be. Who am I to question? I know in that moment, I learned how selfish and unthinking one man could be, but I learned, too, that I couldn't hate all men for that reason. For hadn't a stranger come along to hold out his hand and draw me back from the very edge of death?

Someday I'll find a man I can really love, a man who is worthy of my whole heart and soul. And I think he'll have those same gentle, understanding eyes, the same quiet devotion, as the stranger I met on the lonely highway on that night of shame and terror—and rebirth.

END

HAYLEY MILLS

(Continued from page 23)

I grinned back; I just couldn't resist. But then, a little scared by my own daring, I started walking faster, trying to keep my balance in those unfamiliar high heels.

The boy didn't try to follow me, and I was relieved. I wasn't sure how I'd have handled him if he had tried. When you're sixteen, you haven't had much experience with such situations, and a little thing like a boy whistling at you on the street can be a challenge. It's even a little scary.

The girl I was meeting for lunch was someone I'd met at the Walt Disney Studio. She was usually late for appointments, and sometimes I got a little miffed at her, but this time I was kind of glad. I sat down at the table in the outdoor restaurant where we'd agreed to meet, and told the waiter I'd order in a little while.

I was glad to be alone for a few minutes because I needed time to think about the incident that had just taken place. When a girl starts growing into womanhood, she doesn't change overnight. Maybe it would be easier that way, but instead, I'm learning it's a long, gradual and sometimes painful process.

What had just happened to me was a milestone, and a nice one this time. I wanted to be alone just to enjoy it, kind of like sipping a strawberry soda very slowly to savor all its sweetness.

I wondered what it was about me that had made him whistle. Was it just the high-heels, or maybe the way I'd worn my hair piled on top of my head?

My blue dress, which I was wearing for the first time, wasn't what you'd call slinky or ultra-sophisticated. Not for a place like Hollywood, anyway. But it was, well, definitely not the Pollyanna kind of thing, either.

Mother has remarked several times lately on how fast I've been growing. My mirror tells me that my figure is getting more grown-up, too. I've just been fitted for a couple of those new, junior-size bras, and I still feel strange wearing them. Everything about me seems to be changing all at once. I've begun to feel like someone on a merry-go-round, and sometimes I find myself wishing it would slow down for just a little while, but instead, it seems to be going faster and faster all the time.

Although today was the first time a boy had actually whistled at me, I couldn't help noticing that lately the boys I saw around the studio were looking at me in a different way, too. Boys I've worked with for years without feeling the least self-conscious, now make me feel all prickly when they look at me in a certain way.

I know I'm lucky to have the kind of mother I do. There's nothing I can't talk over with her, and sometimes she seems to know what I want to ask her, even when I can't put it into words. Some of my friends tell me they wish their mothers were like that.

Mother is strict, though, especially by your American standards. Off-screen, she lets me wear only the lightest kind of lipstick and no eye make-up at all. In England, you see, girls grow up more slowly, and mother is too set in her ways to change. "You're only sixteen," she keeps reminding me. "You'll have plenty of time for all these things when you're older." All these things include sophisticated perfume, late dates, and tight-fitting dresses.

Growing up in Hollywood isn't easy. There are a lot of problems that we have here that don't come up with teen-age girls on Main Street in the average American small town.

Those of you who live in a small town know what I mean. If you get a crush on the boy next-door, and then, after a few months it's all over, you can break off quietly. Oh yes, I know there'll be gossip around the high school cafeteria for a week or so, and you'll cry yourself to sleep at night, but then it will be over and a new special boy will come your way.

It's not like that for a girl growing up in Hollywood. If you're a star, as soon as you are in your teens and start

dating, the most casual acquaintance can become the love of your life, in the gossip columns, anyway. Sometimes a girl finds herself in the middle of a big romance with a boy she really doesn't like that well at all. A girl in her early teens isn't really sure of how she feels about a boy; she just hasn't had that much experience yet. She needs time to mix with lots of boys her own age, without any pressures from the outside.

I love my acting career and I wouldn't give it up for the world. But sometimes, I can't help wondering what it would be like to spend a long, lazy summer just to fool around with your own little crowd, to lie in the sun on the beach, or hang around the drugstore waiting for that one special boy to walk in. Or just to sit on the porch swing with your best girlfriend, dreaming about your future and how wonderful it's going to be.

Growing into womanhood in the very special, hectic world of Hollywood has spelled disaster for many child stars. I don't think it will be that way for me, but I know I'll have to be extra-careful to see that it isn't.

Still, growing into womanhood at any time and in any place is an exciting adventure. Now, remembering the boy who whistled at me, I couldn't help smiling. I felt kind of sparkly inside, and at the same time I felt a sense of power. I'm not a woman yet, but I will be soon.

All of a sudden, the sky overhead seemed bluer, the California sunshine seemed to be shining more brightly and I couldn't wait for my friend to arrive so I could tell her all about the adventure I had today. END

CHRISTINE KAUFMAN

(Continued from page 29)

She had taken the children and gone back to California, leaving Tony and Christine together, to complete the film. Maybe that was a mistake, but it was only the last straw in a series of unpleasant incidents between them, and their marriage was foundering before they even went to Argentina.

So Tony and Christine, left alone, grew closer, and by the time he went to Paris to make *Monsieur Cognac*, and Christine had filmed *Tunnel*: 28 in Germany, where Tony had joined her, love had perceptively changed their relationship. They were friends, and then they were sweethearts.

Now they were in Paris, savoring

N. Y. Doctor Conquers The Fat Problem!! EAT RICH-FRIED FOODS AND LOSE UP TO 15 POUNDS IN 14 DAYS

New Medical Discovery Proves Dropping Calories Doesn't Necessarily Drop Weight. Instead Lose Weight While You Eat Fried Chicken, Fried Potatoes, Fried Fish, Fried Shrimp, Pie Crust, etc.

Yes, thanks to the miracle effects of modern medical science, **THE FAT PROBLEM HAS BEEN CONQUERED.** A truly marvellous and simple way has been found to banish body fat that's free of frustration, starvation and hunger pangs. A revolutionary doctor's discovery has unlocked many of your body's chemistry secrets. And now, if you are in normal health, this exciting news may be your answer to a painless, simple, easy way of really losing weight. Yes, this new plan ends starvation diets forever. Instead, you can eat all you want and still lose weight. Calories don't count. In fact, you must eat fat to stay slim.

This painless plan insists that you can (and should) eat all the rich, fried foods you want. Never leave the table hungry. Have three full, satisfying meals a day. Eat steak, french fried potatoes, pie crust... the very things you've been afraid to taste... most anything you want... **AND YOU STILL LOSE WEIGHT.** *Miracle ingredients make all this possible. Use them, and your body immediately starts breaking down and burning up your excess fat, naturally and healthfully.* This sensational system is so safe, tested and effective that a prominent N. Y. Doctor stated "There have been no failures." (He was referring to his many patients treated over the years.)

REDUCING PLAN BASED ON LATEST MEDICAL DISCOVERY

The problem of obesity is an old one. For years researchers missed the mark. No one could really explain why you never lost weight after sweating, starving exercising and torturing yourself with weird unnatural "fads." Or, if you did, why you regained it so quickly. Everyone had something to say, but no one had the answer.

And then, after years of painstaking study, a noted doctor made a startling discovery. He found that it's not the number of calories you

take in daily, *but the kind.* Scientists know that we need fat in our food for body warmth and energy. But this devoted doctor went a few steps further. Investigating this well known knowledge about fat, he found an answer to the weight problem that startled the medical profession. *He proved that "carbohydrates" commit the weight crime... not calories.*

YOU CAN NOW LOSE WEIGHT

- without calorie counting
- without starvation diets
- without hunger pangs, tantrums
- without harmful drugs, painful exercise
- without risk or danger

CALORIES ARE NOT THE CRIMINALS

Carbohydrates (sugars and starches, common in most foods) go through a complicated process in the body. In one stage these turn into a special acid that stops the body from losing weight. In fact, later on this acid partly turns into more fat. And so at long last this famous physician explained why Counting Calories Won't Necessarily Cut Weight. In doing this he found a new, almost miraculous way to reduce, and even make your body do the work for you. Yes, the doctor found that special Natural substances (with long names) work wonders in the body. They team up perfectly and naturally with your normal body functions, and do many things for you. These special substances (which we blended together and call **SLENDRON**) help your body release more energy, and stop you from feeling hungry so often. *More important SLENDRON squeezes fat right out of your body. It starts your body to naturally and healthfully rid you of excess weight without damaging diets, drugs, or a drastic drop in your daily routine.*

their moments together in the midst of the city's gaiety, wanting to hold on to each minute that flew by, before Tony had to return to the states to film *Three on a Couch*....

"Happy, darling? Tony asked Christine, reaching for her hand across the gaily decorated wooden table.

"Oh yes—just filled with joy," Christine answered, her eyes bright with smiles. "It is so wonderful to be here with you. Germany is nice, but I've always dreamed of being in Paris with a man I would love—"

"Is that me?" Tony deliberately kept his tone casual, but his heart began to pound in his chest. Could this be real love again, he wondered, the kind of love he had felt when he had married Janet eleven long years ago?

"It could be, Tony," Christine said softly. "That would depend on a number of things. I'm twenty years younger than you—remember? I wonder how your little girls would react to having me as their new mother, especially when I'm only 18 years old! You know, children always resent having to accept new parents—they just want the old ones..."

"Oh, if we ever decided to get married," Tony said offhandedly, "I'm sure they'd like you very much—after all they don't have to give up their own mother."

But he toyed nervously with the vermilion glass as he said this. He felt uncomfortable, because he was thinking back to a time not so long ago, when he had actually spoken to his daughter Kelly about Christine. It was in Argentina before Janet left.

He hadn't actually come right out and said, "Kelly, I'm thinking about marrying Christine. She'll be your new mommy—at least your step-mother if I do," because the thought hadn't really crystallized in his mind—he couldn't allow it to—he and Janet hadn't decided about the divorce yet—at that time.

But he and Kelly had taken a walk during a free moment between scenes on *Taras Bulba*, and his little daughter held tightly to his hand as they walked.

He looked down at her, studying her face, as he said, "Do you like Christine, honey?"

"She's okay, but she's silly," Kelly answered, with a frankness that surprised Tony every time she exhibited it, even though he knew kids have very few inhibitions. "Daddy, she's always got those scarves wrapped around her head that flap down to her tummy. Why does she wear them?"

"She has to," Tony laughed, "that's inside Movie

one of her costumes for the role she plays in the movie we're making. It's play clothes."

"Well, when she wears those high boots, she scares me. She looks like the wicked witch you read me about in that storybook," Kelly said, and shivered.

"Why, sweetie, Christine is really very pretty," Tony said, taken aback at Kelly's words.

"Maybe she is, Daddy, she has a pretty smile—but she's not near as pretty as Mommy!"

"Your mommy is a very beautiful woman, Kelly, that's true," Tony said, looking off into space, "but you know, the world is full of beautiful women, and beautiful little girls, too," he added, leaning down, brushing a kiss on her downy soft cheek.

"Do you like Christine, Daddy?" Kelly asked.

"Very much, honey. She's very sweet. If you knew her better, you would think so, too. Would you like to know her better, Kelly?"

"I don't care," Kelly said. "Why are we talking about her, Daddy, anyway?"

"Well, just suppose she became your mommy, too? You know, lots of children have more than one mommy—or daddy. It could be fun."

"I hate her!" Kelly said vehemently, suddenly clutching Tony's hand as if she would never let it go, "I don't want to call her Mommy. I don't want to call anyone else Mommy but my very own mommy. I don't need any other, and I don't want any other daddy's, neither. Why can't I just have my own mommy and daddy?" And the tears came welling into her eyes, then coursed down her small cheeks.

"Baby, honey, please don't cry," Tony said. He felt his daughter's tears like a stab in the heart. He bent down and lifted Kelly up, holding her in his arms. "You have your own mommy and daddy, so hush now, honey, there's nothing to cry about."

But he knew that children take things very deeply, and he didn't know how he would ever explain it to Kelly and his other little girl Jamie, if he decided to get married again—to Christine, or any other woman. And if Janet ever married again, it would be just as difficult to explain. Children want only their own parents to be with them, and have a very hard time accepting step-parents, no matter how nice they are. Nothing in life was simple, that was for sure....

Tony turned back to Christine, as she

said, "a peony for your thoughts honey. You were so far away, it was as if you were dreaming."

"I wish I were," Tony said seriously, "waking up to reality is so damn hard sometimes . . . Well, here we are in Paris, the city of lovers, and what do we do? Get gloomy. Crazy, huh? Let's just have a ball. We'll go to Maxim's and Montmartre, and live it up for tonight. Tomorrow is plenty of time to solve the world's problems—and our own. Shall we go on our night of pleasure, Madame?" And he rose and made a mock bow toward Christine.

"With pleasure, sir," she said, rising from her chair and curtsying. "Let us have a lovely night, for at midnight I'll turn into a pumpkin."

They laughed, and after Tony paid the check, they walked off into the night, arms entwined. Tomorrow could wait. But tonight was beautiful. . . .

END

FRANKIE JR.

(Continued from page 34)

It was a hot summer night, and the frail-looking young man stepped to the microphone, mopped his brow as he looked down at the waiting, impatient audience, and then nodded to the bandleader, Bill Elliott. He was ready. This was his big chance, and he couldn't miff it. His future depended on it.

"Okay," he said, almost inaudibly, "here goes. Swing it!"

And the band struck up the first notes of the familiar Cole Porter melody, *At Long Last Love*, and Frank swoog into the tune as if it had been written just for him. He caressed the song with his voice as if it was a woman, putting emphasis on certain lyrics, rarely belting out the sound, and then barely whispering other notes, so that the total effect of Frank's rendition of the song was this: the audience broke into loud cheers and claps that spelled appreciation of a fine singing talent they were discovering for the first time.

From the height of the bandstand, Frank waved and nodded thanks to the people below. He'd done it! He showed them that he wasn't just cashing in on his father's name. He had a future and he could make it on his own. Just watch him go! For once it didn't matter what his father thought—he was going to be real competition for the old fella—maybe. Well, he would try. He grinned as the bandleader came over and shook hands, grinning approvingly at him.

Inside Movie

This kid could really sing, Mr. Elliott thought. He was glad he'd said this boy could try a number. Even if he hadn't had a famous name he'd hire him on the spot, if he was willing to join up with the band as a regular vocalist.

"You want to sing with us, Frankie?" Mr. Elliott asked him later, after the crowds had emptied the theatre.

"Thank you for the offer," the boy said, "That would be real great. But I've just started college—I'm eighteen—and I don't know—I'll have to talk it over with my dad. Maybe I could—I'm going to Arizona State and studying theater, but maybe Dad will let me go on the road with you. I'll speak to him. I'll let you know—and gee, thanks again for letting me sing!"

And he did speak to his father, but Frank Senior only said, "Do whatever you want, Frankie. It's your future. You've got to decide what you want." And that's all. Not a straight yes or no, but just a casual "do what you want . . ."

Later, lying on his bed, brooding, he thought, it was always like that. His father believed in such axioms as "live and let live," and "you've only got one life to live, so live it up," and other sophisticated beliefs. But the net result was that Frankie Junior wished his dad would have taken a real stand, would have given him a real direction about something, anything at all.

Other guys thought he was lucky to have such a permissive, disinterested father, because they thought life must be a ball if you had so much freedom. But freedom, undirected, could get to be a real drag sometimes.

The truth was, Frankie had always wanted his father to be more like the other guys' dads—because, even if they were stricter with their sons, it also made it seem like they cared more, when they said, "I'd rather you didn't do that, son" or "wait 'til you get older before you try that. I'm still your dad, and I know what's best for you, even if you don't agree with me now. You'll see that I was right later on."

At least they were paying attention to you—and learning what you were really like—your good points and your bad, too. You were a real person to them—not just a son whom you came to see once in a while, between your romances and your movie making and your singing engagements. Because, although it was nice in some ways to have a famous dad, it could also be hell!

Suppose your father was always dat-

Frank Senior that Frankie Junior had something on the ball, too. If only his father would be a real parent, he could grow up and be a real man . . .

He'd been lying on his bed, thinking all these things, it seemed for hours, and suddenly he felt restless. He got up and turned on the radio, and a jazzy song blared forth. He was snapping his fingers in rhythm with the beat, when the phone rang. He turned the radio off and picked up the receiver.

"Hello," he said, gruffly, because he was in a bad mood.

"Hi, sonny boy," his father said at the other end of the line, "just thought I'd buzz you and say hello—and let you know I've been thinking more about your future. I heard from some pals of mine you really were the greatest the other night, when you sang with Bill Elliott. Well, I just want to say, if you really want to be a singer, you can depend on your old man to help you along—I mean, give you a few pointers and everything. It's a great life, if it doesn't kill you," and Frank Sinatra Senior laughed, adding, "I've gotta go now, got a date with a real tomato—I mean really saucy! But I'm with you, son, whatever you decide, just call on me. I mean it, kid."

"Thanks a lot, Dad, and I mean that, too," Frank Junior said, grinning broadly, feeling like he was suddenly on Cloud 9. "And Dad, if she's real good, give your tomato a squeeze from me. Tell her there's another one like you, at home, if she wants my phone number. Just watch my speed, Dad, for you're in for some hot competition! And thanks . . ."

"You bet, Frankie Junior. I always knew you'd be a mighty big chip off the old block, when you got started. So long, Romeo—get your own Juliet, with my blessings!"

SOPHIA LOREN

(Continued from page 40)

you're an Italian actress, you can't be bad. Sex is something you're born with—you can't make it up! And I feel, an actress should fall in love and have a family—si, an actress must be a woman."

When you think of these revelations, then it becomes less strange that Sophia should fall in love with Carlo Ponti—he and Vittorio De Sica, another older man, brought out all the talent Sophia was hiding under the guise of a model's blank stare. They helped to develop her from a poverty-stricken, shy and rough Neapolitan gem, to a polished Roman

actress—and woman.

It is only natural that Sophia's heart should open up to Carlo, especially because she never had a father to turn to, when as a child, she looked for love and attention. "Everything I am I owe to Carlo," she said earnestly, "I need a guide, a lover, a husband and a father. He is all four."

If this is beauty and the beast, it is obvious Sophia never read that particular fairy tale. Her beautiful green eyes sparkle with love at the mention of his name, and because she has truly learned that beauty is in the eye of the beholder, to her, Carlo, a dapper but gentle man, with much fire in his veins, is a real prince charming.

Sophia knows that glamor comes from within, and all the powder and paint in the universe, won't make a woman truly beautiful or even attractive, if she is incapable of feeling love, regard, respect or any other worthy emotion toward someone who isn't considered physically attractive.

"What do looks matter, anyway?" Sophia says in her delightful, soft Italian accent, shrugging her expressive shoulders. "To me, a man must have a passion from within, an integrity that makes him the master of his soul, and a lackey to no one—and a tenderness that only a truly masculine man possesses. You can have the swashbuckling, pretty boy type. I don't want him."

"I want a man who can make a woman feel protected, wanted, loved. Only an older man can do this—a younger man is still struggling to make his footprint on the earth, to write his name across the sky—and a woman to him at this time in his life is just a concession to his vanity—the prettier the woman, the better, so he can wear her on his arm like a badge. Does he really care about her? No, he does not—except maybe at night—you know?" Sophia laughed.

"But an older man has less illusions about glory. He knows what he wants—and he knows his limitations, too. So he can appreciate a woman for what she is—he sees her in the real light. If he cares for her, he really loves her, and she knows it. What more could a woman want? Si. But for me, I want just one more thing, besides, because I am an actress. It is in my blood.

"I don't want to be known as a hot Italian sexpot! I want my work—if I do well or not as an actress—to be most important. That is why I value one critic's opinion of me so highly. She said my performance had great dignity. I

treasure that remark—and my Oscar. I really did sweat blood and tears to make my role meaningful in *Two Women*—and then, it was not so hard to be that woman—I know war. I was a child in the streets of Naples when the fighting was going on. I am marked by my experiences then, in that I am more of a serious person, than a jolly, light-headed one. I cherish life—and love, because you can so quickly lose it."

Her eyes filled with tears. She was thinking of the Bigamy charges pressed by Carlo's first wife, Giuliana, a woman lawyer. Sophia wed Carlo in 1957 in Mexico by proxy, but since there is no divorce in Italy, this marriage is not considered legal—even though Carlo had obtained a Mexican divorce from Giuliana.

Carlo is charged with Bigamy, and Sophia with Complicity, and how it will resolve itself is a mystery at this moment to all concerned.

But it is certain that Carlo will never give up the lovely Sophia, of his own free will, and Sophia will follow the man whom she loves more than life, to the remotest island in a far away sea, if need be, so that they may never be separated. Some say these two are the modern world's greatest lovers, and watching them gaze adoringly into each other's eyes, the passage-way to the heart, who could disagree? END

RICKY NELSON

(Continued from page 43)

of a Karate expert are also classified as deadly weapons.

"And you're an expert in Karate, aren't you, Ricky?" I asked. "I mean, you could kill a man with a single blow if you had to, isn't that correct?"

Ricky Nelson is a modest young man, and it took a lot of probing questions before I got the whole story. He finally admitted that he is qualified to be called an expert, for he has earned the right to wear the celebrated Karate black belt, which is the highest possible award in this ancient Korean and Japanese combat sport.

"Really, I owe whatever skill I have in Karate to my teacher, Bruce Tegner," Ricky said quickly. "He's one of the best Karate instructors in America."

I was still trying to make this picture of the new Ricky Nelson fit in with the one of the boy who became famous on the Ozzie and Harriet Show, and later, as the singing idol of teen-age girls all across the country for his tender renditions of love ballads.

"What made you decide to take up Karate?" I asked him. "Is it just some kind of fad that's been sweeping Hollywood these days, like judo and jujitsu?"

Ricky shook his head. "Maybe it's that way for some guys," he said, "but not for me." He grinned. "There was one actor—we'll skip names—who thought he'd make an impression on his date by breaking a table top in the restaurant he'd taken her to."

"And did it work?" I wanted to know.

Ricky's smile broadened. "The guy broke his hand instead. Probably served him right." He added seriously: "Karate isn't a fad or a party stunt; at least it's not meant to be. It's an ancient and respected oriental sport. And it isn't something you can pick up in a few easy lessons to make a hit with your girl or impress your pals."

"Personally, I took up Karate because it's a terrific conditioner. I've been taking lessons regularly for over a year with Bruce Tegner. Karate really keeps you in top physical shape, and to me, that's the best reason for learning it."

"Is it true that your picture hangs in the headquarters of Shukoh-kai?" I asked him.

He nodded with quiet pride. "That's right. Shukoh-kai is one of the world's major Karate associations; its in Kobe, Japan," he went on to explain.

Just then a doleful-looking bassenoid came ambling into the room. Ricky bent to scratch the dog behind its long ears. "This is Howard," he told me. You could tell, just by the way he handled the dog that he was an animal lover. I knew that he also owned a quarter horse named Tinker Toy and a mynah bird named Jed.

It wasn't easy trying to picture this young man practicing a sport that could cripple or kill an opponent. It was even harder trying to reconcile the picture of Ricky Nelson that adorned the walls of a thousand teen-ager's bedrooms with that other picture of the black-belted Karate expert hanging in the headquarters of Shukoh-kai.

"You were rather sickly as a child," I said. "Do you think that has something to do with your putting so much emphasis on physical conditioning?" I was thinking of men like Teddy Roosevelt and Bernarr Macfadden, who had been weak as boys, and had reacted by going on to build themselves up into physical giants.

Ricky laughed. "I doubt it," he said. "I had a few asthma attacks as a kid, but I outgrew those long ago. No, I'd just say that Karate is the most demand-

ing and challenging sport I've come across so far. And, like all oriental sports, you have to use your mind every minute, not just your muscles."

Now came the hard question, the one I'd been putting off: "Would you use your Karate training in self-defense if you had to?" I asked.

Ricky looked thoughtful. For a moment he didn't answer. At last he said: "Only if I believed my life were being threatened. I hope that never comes up. In Karate, you can break a man's arm or leg with a single, well-placed blow. That should be enough to take care of you in any ordinary fight."

"But you could also kill a man using Karate tactics, couldn't you?" I persisted.

Ricky nodded. "A blow in the solar plexus would do it, if you used enough force. But, as I said, in such a case I'd be charged with assault with a deadly weapon, the same as if I'd used a knife or a gun." He shook his head. "I sure hope I'll never find myself in a spot like that. Karate's always been a great sport with me, and I plan to keep it that way."
